

New Source Review newspaper advertisements for construction permit applications, January 8, 2004. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: January 6, January 7, or January 8, 2004. Public notices are generally published every two weeks. The previous publication of public notices was December 23 – 25, 2003.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Tennessee Valley Authority – Lagoon Creek CT Plant with a mailing address of 1101 Market Street, Chattanooga, TN 37402-2881. They seek to obtain an air contaminant permit (Division identification number: 38-0069-01/56987) for modification of an Electric Generating Facility located at 615 Elm Tree Road, Brownsville, TN 38012. The facility consists of twelve (12) simple-cycle combustion turbines used in the generation of electric power. The requested modification is an increase in the heat input capacity for the four (4) natural gas heaters for this facility. Low-NO_x combustors and wet injection are used for pollution control. There would be physical construction. Regulated air contaminants are emitted by this source. Mr. R. Thompson is the assigned Division person.

For the Haywood County “States Graphic”--published once on or before Thursday, January 8, 2004.

The applicant is MOST, Inc. with a mailing address of 50 Cherry Blossom Way, Troy, MO 63379. They seek to obtain an air contaminant permit for air contaminant sources located at James Lawrence Road, 6 miles west of Jackson, TN 38301, as follows:

(1) Crusher (Division identification number: 57-0286-01/56939). This proposed operation would consist of a hammermill crusher used to break aluminum scrap into smaller pieces. The crusher would have a low temperature dust collector to control particulate emissions. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. G. Latif is the assigned Division person.

(2) Two Melting Furnaces (Division identification number: 57-0286-02/56940). This proposed operation would consist of two melting furnaces for the melting of aluminum scrap into molten aluminum for customer use. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be

physical construction. Regulated air contaminants would be emitted by this source. Ms. G. Latif is the assigned Division person.

For the Madison County "Jackson Sun"--published once on or before Thursday, January 8, 2004.

The applicant is Coit Services with a mailing address of 86 South Willow Avenue, Cookeville, TN 38501. They seek to obtain an air contaminant permit (Division identification number: 71-0221-01/56937) for construction of a Dry Cleaning Operation at the same address. This proposed operation would consist of a large dry-to-dry perchloroethylene dry cleaning machine. A refrigerated condenser would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. N. King is the assigned Division person.

For the Putnam County "Cookeville Herald-Citizen"--published once on or before Thursday, January 8, 2004.

The applicant is Pro Cleaners with a mailing address of 204 Ward Circle Drive, Brentwood, TN 37027. They seek to obtain an air contaminant permit (Division identification number: 94-0226-01/56866) for the operation of an existing Dry Cleaning Facility located at the same address. The permit is required due to a change in ownership since the initial construction permit was issued. This existing operation consists of a large dry-to-dry perchloroethylene dry cleaning machine. A refrigerated condenser is used for pollution control. There would be no physical construction. This source emits regulated air contaminants. Ms. N. King is the assigned Division person.

For the Williamson County "Review Appeal"--published once on or before Thursday, January 8, 2004.
